Consulting

MSI's international standards consulting services are tailored to be a true partner to your organization whether you are embarking on implementation of ISO 9001, 14001 or AS 9100 or would like assistance on maintaining any management system. Our **ten** years of experience can assure your organization it is on the right path. Also, our unique tools, templates, and knowledge expedite all we do for you and your management system. From the implementation of processes to identifying gaps, MSI's consulting is **the** answer for success.

Some examples of our consulting services available are: Turnkey Implementation, Gap Analysis, Aspect Identification, Documentation Development, Review or Transition, Internal Auditing, Ongoing Maintenance and much more. MSI's unique approach may utilize onsite presentations or confidential mentoring from one of our current clients. No matter what obstacles may arise in your organization, MSI consultants stand ready to offer assistance with a positive impact. Helping more than 500 companies nationwide to achieve certification, MSI clients are recipients of the value driven results we strive for and achieve every day.

Innovative Training

MSI's comprehensive training courses emphasize the requirements of ISO 9001, 14001 and AS 9100 standards and provide helpful instruction. In addition, MSI's training services include either classroom or onsite instruction. Either venue allows trainees to obtain education from the relevancy of their work environment. Our Carlsbad, CA facility includes a complete training center where MSI's

Powering Business Forward

Consulting, Training & Software Services

training services are conducted regularly. Over ten years, MSI has offered Overview, Implementation, Internal Auditor and QMS Planning training courses which have proven beneficial and extremely valuable to companies nationwide. Please view our website to register and peruse a current list of the courses we offer for the calendar year.

Software Solutions

Would you like to make your job easier and improve your business processes? Would you like to:

- Streamline your document, process and procedure controls with absolute revision tracking and distribution using minimal effort?
- Get full visibility on your internal audit planning, issues/nonconformities, risk, compliance, supply chain, health & safety and feel confident you have the requirements covered?
- Manage NCR's and CAR/PAR's and know why, how, when and root cause easily?
- Sort and extract data unique to your requirements while mobile yet in real time; especially in preparation of the management review?

MSI offers its clients proven software solutions for automated process flowcharting and analyzing (allClear) and software to manage compliance, quality assurance, risk assessment, business/continuous improvement efficiently and effectively (Proquis).

Testimonials of MSI Clients

"Thank you for the ISO 14001 training that you provided. You worked to satisfy our company's needs. The class content was valuable in allowing our group to understand the gaps we had in our implementation prior to our pending assessment. The trainer was extremely knowledgeable on the subject and made the class not only a great learning experience but left us with a deep understanding of the subject." **C&D Technologies, Sr. Quality Engineer**

"Because of the previous false start with another firm we realize the value, and appreciate our relationship with MSI that much more. MSI has been instrumental in our gaining and maintaining ISO certification quickly and efficiently. Further, all the MSI personnel we have met have been knowledgeable and professional." **Inphi, VP of Operations**

"Valley Metals' success was directly related to the excellent job of employee training provided by MSI. We approached our actual ISO certification audit with a high-level of confidence and composure. The value of what we received was well worth the investment in our future." **Valley Metals, President**

"MSI's presentations are succinct, well expressed, pertinent and relevant. The information will be used by many for their ISO and AS efforts." **ISO Lead Auditor**
